B. The following additional provisions apply to this Contract:

1) ENABLING CLAUSE FOR PRIME AND SUPPORT CONTRACTOR RELATIONSHIPS (N52.209-006 (OCT 2011))

(a) The Government currently has, or may enter into, contracts with one or more of the following companies, the primary purpose of which is to furnish independent and impartial advice or technical assistance directly to the Government in support of the Governments management and oversight of a program or effort. These companies (hereafter referred to as support contractors), incorporated into their respective contracts, and/or by separate non-disclosure, confidentiality, proprietary information, or similar agreements to safeguard the sensitive and proprietary information of other contractors, subcontractors, suppliers, and vendors to which they have access.

1. Scitor Corporation
2. General Dynamics
3. Tecolote Research, Inc.
4. Analex
5. SRS Technologies
6. Northrop Grumman (TASC)
7. L3 Communications
8. SAIC
9. Aerospace Corporation
10. TriSept Corporation

(b) In the performance of this Contract, the CONTRACTOR agrees to cooperate with the companies listed above. Cooperation includes, but is not limited to, allowing the listed support contractors to attend meetings, observe technical activities; discuss with the CONTRACTOR technical matters related to this program at meetings or otherwise; and access CONTRACTOR integrated data environments and facilities used in the performance of the Contract.

(c) The CONTRACTOR must provide the support contractors access to data such as, but not limited to, design and development analyses; test data, procedures, and results; research, development, and planning data; parts, equipment, and process specifications; testing and test equipment specifications; quality control procedures; manufacturing and assembly procedures; schedule and milestone data; and other contract data. To fulfill contractual requirements to the Government, support contractors engaged in general systems engineering and integration efforts and technical support are normally authorized access to information pertaining

to this contract. Exceptions, such as when the CONTRACTOR seeks to limit distribution of data to Government personnel only, the CONTRACTOR must submit this request in writing to ULA.

(d) The CONTRACTOR further agrees to include in all subcontracts, exception for those to provide on commercial and/or non-developmental items, a clause requiring the subcontractor and succeeding levels of subcontractors to comply with the response and access provisions of paragraph (b) above, subject to coordination with the CONTRACTOR. This clause does not relieve the CONTRACTOR of the responsibility to manage the subcontracts effectively and efficiently, nor is it intended to establish privity of contract between the Government or support contractors and such subcontractors.

(e) The CONTRACTOR and its subcontractors are not required to take contractual direction from support contractors.

(f) Clauses N52.227-005, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends, and N52.209-008, which will be incorporated into all NRO support contracts, required the support contractors to protect data and software related to this Contract, and prohibit them from using such data for any purpose other than performance of the support contract.

(g) Support contractors shall protect the proprietary information of disclosing contractors, subcontractors, suppliers, and vendors in accordance with clause N52.209-008. Because this clause provides that such disclosing contractors, subcontractors, suppliers, and vendors are intended to be third-party beneficiaries, all such disclosing parties agree that these terms satisfy the non-disclosure agreement requirements set forth in 10 U.S.C. 2320(f)(2)(B). Accordingly, the CONTRACTOR may only enter into a separate non-disclosure, confidentiality, proprietary information, or similar agreement with a disclosing party on an exception basis, and only after notifying the Contracting Officer. The Government and the disclosing contractors, subcontractors, supplier, and vendors agree to cooperate to ensure that the execution of any non-disclosure agreement does not delay or inhibit performance of this contract, and the Government shall require support contractors to do the same. Such agreements shall not otherwise restrict any rights due the Government under this Contract. Separate non-disclosure agreements may be executed only in the following exceptional circumstances:

- (1) The support contractor is a direct competitor of the disclosing party in furnishing end items or services of the type developed or produced for the program or effort;
- (2) The support contractor will require access to extremely sensitive business data; or
- (3) Other unique business situations exist in which the disclosing party can clearly demonstrate that clause N52.209-008 does not adequately protect their competitive interests.

(h) Any proprietary information furnished to support contractors shall be:

- (1) Disclosed in writing and clearly marked "proprietary" or with other words of similar meaning; or
- (2) Disclosed orally or visually (for instance, during a plant tour, briefing, or demonstration) and identified as proprietary information at the time of the oral or visual disclosure by the Government or a disclosing party. The support contractors shall treat all such information as proprietary unless within fifteen (15) days the support contractor coordinates with the Government or disclosing party to obtain a written version of the proprietary information and determine the extent of the proprietary claims; or
- (3) Disclosed by electronic transmission (e.g., facsimile, electronic mails, etc.) in either human readable form or machine readable form, and the CONTRACTOR marks it electronically as proprietary within the electronic transmissions, such markings to be displayed in human readable form along with any display of the proprietary information; or
- (4) Disclosed by delivery of an electronic storage medium or memory device, and the CONTRACTOR marks the storage medium or memory device itself as containing proprietary information and electronically marks the stored information as proprietary, such marking to be displayed in human readable form along with any display of the proprietary information.

(i) The CONTRACTOR agrees not to hold the support contractor liable for unauthorized disclosure of proprietary information if it can be demonstrated in written documentation or other competent evidence that the information was:

- (1) Already known to the support contractor without restriction on its use or disclosure at the time of its disclosure by the disclosing party;
- (2) In the public domain or becomes publicly known through no wrongful act of the support contractor;
- (3) Proprietary information disclosed by the support contractor with the contractors prior written permission;
- (4) Independently developed by the support contractor by a third party who was legally entitled to disclose the same and who did not acquire the proprietary information from the disclosing party;
- (5) Disclosed to the support contractor by a third party who was legally entitled to disclose the same and who did not acquire the proprietary information from the disclosing party;
- (6) Specifically provided in writing by the U.S. Government to the support contractor with an unlimited rights license; or
- (7) Disclosed by the support contractor as required by law, regulatory or legislative authority, including subpoenas, criminal or civil investigative demands, or similar processes, provided the support contractor provided the disclosing party that originated the proprietary information with prompt written notice so that the disclosing party may seek a protective order or other appropriate remedy, and provided that, in the absence of a timely protective order, the support contractor furnishes only that minimum portion of the proprietary information that is legally required.

(j) Any notice to the support contractor(s) required or contemplated under the provisions of this clause or clause N52.209-008 shall be in writing and shall be deemed to have been given on:

- (1) The date received if delivered personally or by overnight courier;
- (2) The third day after being deposited in the U.S. mail, postage prepaid; or
- (3) The date sent if sent by facsimile transmission or e-mail with a digital copy

(k) The Government and CONTRACTOR agree to cooperate in resolving any unauthorized disclosure or misuse of proprietary information by a support contractor. This shall not be construed as requiring the CONTRACTOR to conduct an inquiry into an unauthorized disclosure or misuse, or as authorizing the

allocation of costs for such an inquiry directly to this Contract. Any costs incurred by the CONTRACTOR in said fact-finding efforts may be allowable and allocable upon determination of the Contracting Officer after adjudicating the circumstances related to any unauthorized disclosures or misuse.
