

HERITAGE OF SUCCESS

Leveraging a legacy of successful development, ULA is the industry's most experienced team, delivering unmatched reliability and 100% mission success to LEO, GEO and beyond.

VULCAN COMMERCIAL LAUNCH SERVICES

Mission Success is Business Success

THE VULCAN ADVANTAGE

At ULA, we don't just see ourselves as your ride to space.

We are your business partner, committed to building and implementing a launch strategy that maximizes your profit and positions you above your competition. When your payload absolutely, positively has to get to space safely and on time, ULA leads the industry.

With the introduction of Vulcan, ULA will provide higher performance and greater affordability while continuing to deliver unmatched reliability and precision. Vulcan's evolutionary design coupled with innovative technology provides one system for all missions.

Spacecraft encapsulation at Astro-tech's state-of-the-art facilities

Processing and launch from Cape Canaveral's Space Launch Complex-41

FLEXIBLE

- Tailorable Mission Design
- World's Most Capable Upper Stage
- Large GEO Spacecraft in Either Berth
- Performance Scaled to Customer Needs
- 15.5 m Standard or 21.3 m Long PLF
- 0, 2, 4, or 6 SRBs

AFFORDABLE

- Dual Launch Baseline in Vulcan Design
- Customizable Payment Terms
- Comprehensive Mission Integration

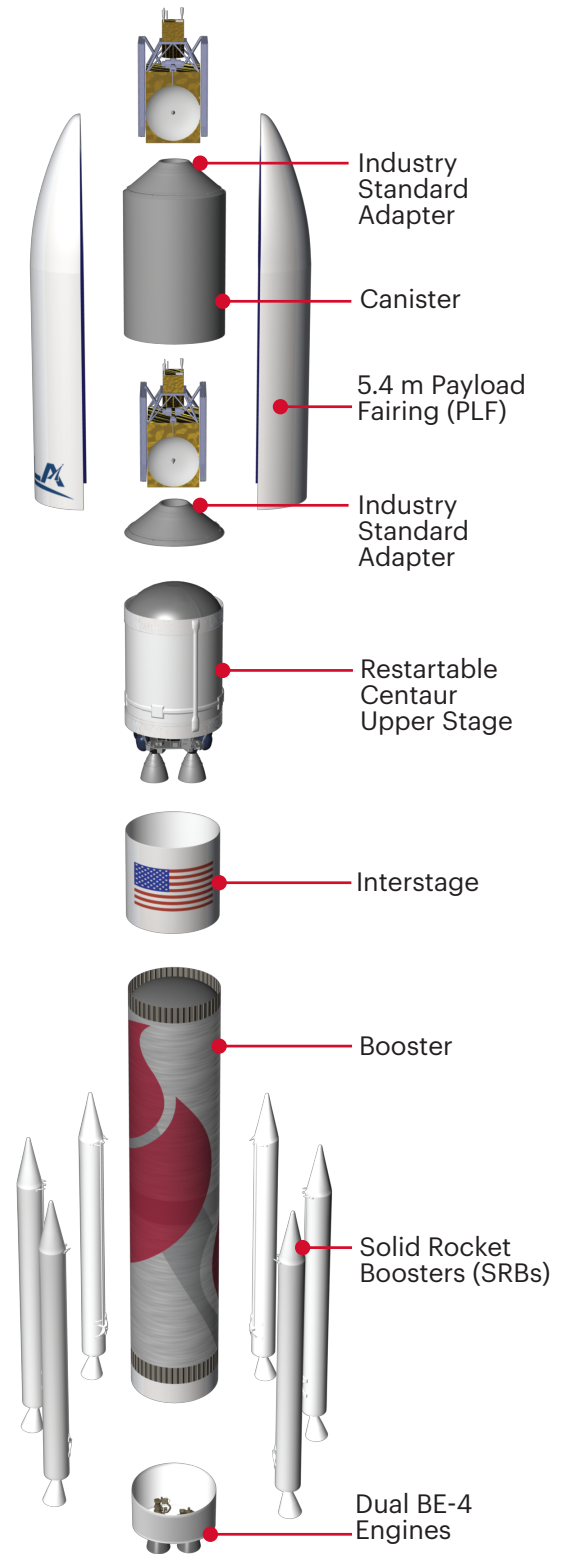

CUSTOMER FOCUSED

- Your Mission is Our Mission
- Transparent Communication
- Unparalleled Partnership

DUAL LAUNCH TO GTO

35,786 km x 185 km @
27.0 deg (1,800 m/s)

- Orbit Optimization Available
- 13,000 kg to GTO

Shown: VC6L Dual Launch
Six SRBs, Long PLF
